

Meet Rain

Rain and her four children (Ja'Male (12), twins King and Ace (6), and Ka'Reem (5)) are so excited to move into their new Lexington Habitat home. The townhouse will provide space for the kids to enjoy as they grow up in a safe, stable environment. Rain looks forward to having her own home where she can decorate, make adjustments, update things as needed and ensure her kids have a safe place to play.

Three of Rain's children have been diagnosed with autism spectrum disorders. When the family moves into their new home, Rain can't wait to create a sensory room for the boys, where she will offer a welcoming, soothing space with a variety of tools and items designed to comfort and calm her children.

Rain works in transportation for Fayette County Public Schools. When she isn't working, she loves to read urban fiction and spend quality time with her family.

Her oldest son, Ja'Male, is interested in music – he plays tuba, trombone and sax. Plus, he recently began to learn the electric guitar.

Ace is interested in photography and loves Sonic the Hedgehog. King is very interested in letters and the alphabet. Ka'Reem loves noise-maker toys.

Most of all, the vibrant family loves to spend time together.

To her sponsors, Rain wants to say that she is incredibly dedicated to her boys and loves them with her whole heart. She looks forward to breaking generational curses and having something meaningful to leave behind for her children.

"I love and appreciate each and every one of you!"
